About Me

Full-Stack Developer passionate about building robust and scalable solutions. Currently pursuing a Technical degree in Systems Development and a Technologist degree in Multiplatform Software Development. Experienced in C#, ASP.NET, React, Next.js, Java, Spring Framework, TypeScript, Node.js, Angular, and modern software architectures. Seeking to contribute to innovative teams in the development of enterprise-grade systems.

Technical Skills

- C# & ASP.NET
- Next.js & Angular
- Java & Spring Framework
- MySQL, PostgreSQL & SQL Server
- REST APIs & Docker

Methodologies & Principles

Scrum, SOLID Principles, Domain-Driven Design

Education

Technical Degree in Systems Analysis and Development — ETEC Prof. Ilza Nascimento Pintus
Completed in December 2024
Focused on programming logic, database design, and agile methodologies.

Technologist in Multiplatform Software Development — FATEC Prof. Francisco Moura
In progress (expected completion: 2027)
Emphasis on multiplatform development, software architecture, and modern technologies.

Professional Experience

Software Development Intern — 09/2025 - Present
Developing projects using ASP.NET, Next.js, and SQL Server. Focused on clean architecture and development best practices.

Highlighted Projects

ACTI Case (ASP.NET, Angular & SQL Server)
Complete partner management application with DDD-based backend and object-oriented

frontend.
View on GitHub → https://github.com/Leo-Slv/ACTi-case

Portfolio (Angular, TypeScript, Tailwind)
Personal responsive portfolio with a modern design and smooth animations.
View on GitHub → https://portfolio-git-master-leonardos-projects-ca06eb83.vercel.app/

SHOP API (Java, Spring, MySQL)
RESTful API for e-commerce with authentication, product, and order management.
View on GitHub → https://github.com/Leo-Slv/SHOP_API

ErrorSquad Server (Node.js, PostgreSQL)
Backend server for project management with WebSocket real-time communication.
View on GitHub → https://github.com/ErrorSquad-ABP/ErrorSquad-Server

Certifications & Courses

• English Course - Intermediate Level — ICBEU (2017–2019)
• ASP.NET — Self-taught (2025)
• Next.js — Self-taught (2025)
• Angular — Self-taught (2025)
• Spring Boot — Self-taught (2024)

Additional Competencies

Software Architecture: Domain-Driven Design, SOLID, Clean Architecture
Soft Skills: Teamwork, Communication, Problem-solving
